## Message to the Congress of the United States

TO THE CONGRESS OF THE UNITED STATES:

 [White House News](#)

In accordance with the provisions of section 1512 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261), I hereby certify that the export to the People's Republic of China of the following items is not detrimental to the U.S. space launch industry, and that the material and equipment, including any indirect technical benefit that could be derived from such exports, will not measurably improve the missile or space launch capabilities of the People's Republic of China:

- Twenty Honeywell model QA 750 accelerometers to be incorporated into railway geometry measurement systems for China's Ministry of Railways.
- Equipment and technology associated with the production and testing of composite components for Boeing commercial aircraft.

GEORGE W. BUSH

THE WHITE HOUSE,

February 11, 2007.
